

EMERGENCY SHIPHANDLING PROCEDURES FOR PILOTS

(MU-025-018-ENG)

Objectives:	Update and refresh the necessary knowledge to ensure optimal execution of the various procedures used during emergency manoeuvres.
Duration:	18 hours (2½ days)
Schedule:	Begins at 8:30 a.m. <i>This schedule may be tailored for specific requirements.</i>
Participants	A maximum of six (6) participants.
Prerequisites:	Holding a pilot's license or being in the process of acquiring such a license.
Preferred teaching strategies:	Mainly practical. Brief theoretical explanations followed by exercises on the multidisciplinary navigation simulator.
Skill enhancement activities:	Theoretical and practical. Hands-on experience using the navigation simulator. Discussions among the participants encouraged during debriefing sessions.
Certification:	Issuance of a MSRC training certificate.

Course outline

- 1. Welcome, course registration, handing out course material**
- 2. Overview of the course outline**
- 3. Emergency procedures:**
 - 3.1 Situation management
 - 3.2 Basic emergency manoeuvres
 - 3.3 Use of anchors in emergencies
- 4. Hands-on experience:**
 - 4.1 Practical exercises on the simulator
